

## Our Visit to the National Art Gallery.

On Wednesday the 22<sup>nd</sup> of June both year three classes went to the National Art Gallery. We got there by coach and on the way we saw some amazing things. We saw Big Ben it was huge, couldn't have been any bigger. Further along were the London Eye and the Houses of Parliament.

When we got there a tour guide called Jan. She told us to look for clues in the paintings. She showed us three paintings. One was Charles I on a horse, another was Monet's bridge over a lake, but my favourite was the one with cows, sheep, horses and a few men. In it there was a man with a gun. At first we thought it was shooting at the cows, but then we realized that he was shooting at the ducks. He had his dog with him so that he wouldn't have to fish the ducks out himself.

After that we had our lunch. Then we got split into groups and went to look and sketch different paintings.

When we had sketched three/four paintings it was time to go. We went back by coach. We had a fantastic time at the National Art Gallery. We will never forget the day.
