

JUNIOR CITIZEN SHIP DAY

On Thursday the 5th of July, the two Year 6 classes of St. Cecilia's, went with the Metropolitan Police to Rose Hill tennis centre for the long awaited Junior Citizenship Day. When they first arrived they were informed what they'd be doing throughout the day by W.P.C Cole and were soon warming up with a gentle jog around the tennis courts, not long after they were underway with games, the first, the lines game, and the second game, unnamed but where you had to whack tennis balls over the net without them being caught.

When they'd finished on the tennis courts they proceeded to the gym where they would be working those muscles and getting that heart pumping, they started with some stretches and then proceeded on to the machines with the treadmills and the rowers being by far the most popular. After half an hour in the gym, they left for lunch, and after all that exercise, by golly were they hungry.

After lunch, they entered another part of the tennis courts, but across the court there were several stations, each of which explaining a different part of Junior Citizenship. From safety hazards, to strangers, to product age limiting. It was great fun and the Year 6's next year should really enjoy it.

THE END
